

VERBENA PLANT NAMED 'SUNTAPILABU'

5

ABSTRACT OF THE DISCLOSURE

Disclosed herein is a new and distinct variety of
Verbena plant having a decumbent and compact growth
10 habit. The Verbena plant has abundant branching, the
whole plant remaining in bloom for a considerable period
of time. The flowers are formed in profusion in a spike
and the petals display a strong purple color. The
blooming period is from April to November, and the
15 flowering duration is long. The plant exhibits high
tolerance to heat, high resistance to rain, pests and
disease, particularly powdery mildew.
